

DOTLUX EMERGENCY POWER ACCU-KIT 5W/2,5W constant power (3h/6h) for constant current operated LED lights with ext. test button LiFePO4 6,4V for retrofitting of e.g. linear lights.

Order number: 4343

- In case of power failure the kit provides emergency lighting of constant current operated LED lights, which are then powered by the internal rechargeable battery.
- When the light is switched off and the mains power fails, the emergency power operation starts as well
- The emergency power operation AKKU-KIT is especially suitable for retrofitting of e.g. trunking Systems from the DOTLUX assortment
- Universally applicable for all LED luminaires with external ballasts with an operating voltage of an operating voltage of 16 - 60 V DC.
- The emergency power operation AKKU-KIT includes an operation status LED with built-in socket and a test switch for external mounting.
- The AKKU-KIT does not replace the power supply unit of the LED luminaire. The AKKU-KIT must be ordered ordered in addition to the power supply unit.

Input voltage: 220 - 240 V AC; Battery runtime: 3h; ETIM Gruppen-ID: EC000357
width: 30mm
