

Wago PCB terminal SMD through board PCB terminal; 0.75 mm²; pitch 6.5 mm; 2-pole

Order number: 4198

- SMD PCB terminal with push-in CAGE CLAMP® connection for backside wiring of LED modules
- Low overall height of only 1.1mm on the front of the module
- Connection of solid conductors via push-in connector
- Insertion of fine-stranded conductors and removal of all conductors via operating tool

Inrush current in A: 0; Energy efficiency class according to EU regulation 2019/2015: not required; Pulse duration in µs: 0
width: 12mm
