to the product page

Remote control for DOTLUX SURFACEsensor and SURFACEsensor-exit

This remote control is required to set the motion sensor and the daylight sensor of the SURFACEsensor luminaires.

- You only need one remote control for any number of luminaires
- The remote control must be pointed at the light to change settings (infrared)
- The light visually confirms the setting by flashing

The following values can be set:

- Range range in 3 stages (up to 8m)
- Daylight sensor in 3 levels (off, twilight, night)
- Light duration (30sec, 3min, 10min)
- Standby brightness (OFF, 10%, 20%, 30%) Permanent basic brightness
- Sensor (on, off)
