LED power supply CC 750mA 40W 30-50V incl. motion and daylight sensor

- Three different functions of the high-frequency sensor possible:
  - On/Off function to 100% light intensity via sensor, then 0% light intensity.
  - On/Off function to 100% luminous intensity via sensor with adjustable afterglow duration/power
  - Permanent basic brightness (20% / 35% luminosity) with additional On/Off function to 100% luminosity via sensor with adjustable afterglow duration
- In addition, the following values are adjustable in steps:
  - Range (up to 10 m)
  - daylight sensor - light duration
  - Afterglow duration (none to continuous)
  - Afterglow power (10% / 25%)
